Aquatic invasive species may have negative impacts on the environment, economy, and public health. They can damage local fisheries, increase taxes, and cause health problems.

CLEAN DRAIN DRY

CLEAN off all plants, animals, and mud from boat and related equipment (e.g. waders, fishing gear, life jackets)

DRAIN onto dry land any item that can hold water (e.g. bilge, ballast, wells, buckets)

DRY all items completely before launching the watercraft into another body of water

Has Your Boat Been Outside BC in the Last 30 Days?

IF **NO**, SEE OTHER SIDE

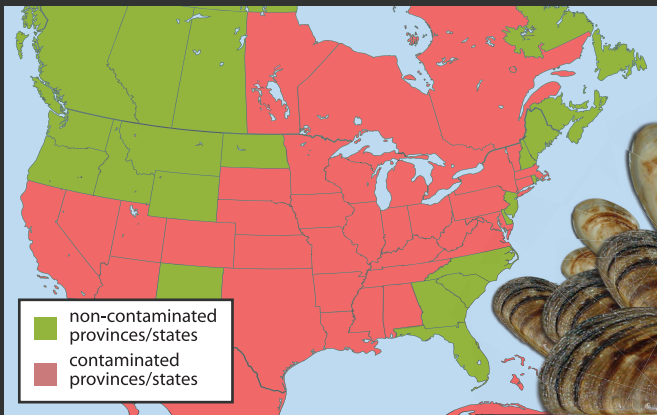

IF **YES**, then your boat might be transporting invasive zebra or quagga mussels. Help protect BC waters from these devastating aquatic invasive species.

Has Your Boat Been in a Mussel-Infested Province or State in the last 30 days?

Zebra and Quagga Mussel Sightings and Distribution
Dreissena polymorpha and *D. rostriformis bugensis*

Report It. It's the Law!

If you have visited a red-shaded province or state in the past 30 days, **DO NOT** attempt to clean the watercraft yourself. Your watercraft requires decontamination. Call 1-877-952-7277 (RAPP line)
